The Graphic has come to stay.

Last week's edition was all exhausted before the evening of its issue.

Over a hundred subscriptions a week indicates in which direction the feline propels herself.

The Graphic boom has just struck the outside townships and is getting its work in beautifully.

The Graphic is a permanent institution, and has commanded success from its very first issue, all reports to the contrary notwithstanding. Contracts on subscription and advertising made for one to five years if desired.

We note that our exchanges are quoting liberally from the Graphic.

"Better be out of the world than to be out of the fashion." Its very blight of fashion to subscribe for the WEEKLY GRAPHIC; either cut bias for the campaign, or made full and trimmed with flounces as train for the whole year. It wears well and is warranted fast colors.

James Osenbaugh, the grocery man, has been setting up cigars this week in a lavish and reckless manner. (Cage, a new boy at his house. He says he don't want one often than once in thirteen years, while the price of cigars keeps at the present figures.

Buy the Eldredge and Domestic sewing machines they are the acknowledged leading machines in the world. Examine them and you will be convinced. Bought for cash at factory in large lots, and will be sold at small profit by D. S. Guise, south side square.

There was a small speck of war in Africa on Sunday morning near the depot. A colored gentleman and his amiable wife were holding an animated discussion with brown sticks and bed slats as the principle arguments advanced. From accounts the lady gained the most points in the discussion, and would have scored a complete victory if the arrival of the city marshal had not caused her worthy spouse to suddenly absent himself.

Mr. J. R. Haller, living north of town is the owner of a fine turkey gobbler that has taken into his head that he can hatch out a brood just as well as any of the hens. Recently he drove the female off her nest and ensconced himself thereon, and he has been gallantly holding the fort ever since. There are fourteen eggs in his nest and in due course of time it is expected he will be the happy father of a nice brood.

Whether Mr. Gobbler will try thereafter to bring them up in the way they should go, or turn them over to a step mother remains yet to be seen.

OUR OFFICE.

After several annoying and vexatious delays in the receipt of a portion of the materials ordered, is now complete in all its departments.

Dr. John, proprietor of the Democrat has our thanks for his courtesy in tendering us the use of his press till our own arrived and was set up.

It is a pity such a genial and versatile gentleman in private life, should hold such abominable political principles and opinions.

The last number of the Graphic was printed on its own press, as will be all future numbers, and those parties who are so industriously reporting that it is wholly gotten up and printed in a democratic office can take a little rest from their arduous duties.

Parties desiring Job printing, of any description, should call and see us.

A Normal Sunday school was organized at Union Banner school house, in Wilson township, Adair county, on Sunday last, with P. M. Hingey, superintendent.

Hade Brown, must hang June 25. The Supreme court refuses to change the judgment of the Circuit Court, and has decided must hang June 25th, to expiate his crime of murdering Mrs. Parish, his mother-in-law in Randolph county, some two years ago.

The Indians are on the war path, and no mistake, not far from Tucson, Arizona nine prospectors were killed, and a friendly Indian has warned the settlers on the San Pedro river to seek a place of safety, or they will all be massacred. The settlers are fleeing to Tucson for safety. At Silver City, Cal., the inhabitants have been thrown into a high state of excitement by the hostile Utes, six men having been killed in a mining camp near there. There is also trouble along the line of British America.

Ladies Linen Dusters, at Harlan's.

BOLD BURGLARS! GREENBACKERS.

Private Houses Raided—The Q. M. & P. Depot Entered—Grocery Stores Robbed.

Tuesday night the kitchens of Mr. Isaac Brennenman and Mr. D. M. Lantz, were raided and such edibles as suited the fastidious taste of the burglars were appropriated. Also that night the dwelling of Mr. Wilcher, in the north part of town was entered and twenty-five dollars in cash stolen. Mr. Wilcher is an old man, infirm and nearly blind. Any decent thief, with half a thief's honor, if such a thing there be, would not have taken it, or having taken it, would return it.

Wednesday noon while the agent and employees about the Q. M. & P. depot were at dinner, the office was entered and about fifteen dollars stolen.

Wednesday night the grocery stores of S. F. Furrow and the Halliday Bros., were entered, and a number of articles taken. Mr. Furrow found his money drawer missing, besides a can or two of oysters and a side of bacon. The money drawer was afterward picked up in the rear of the jail and had been broken open and examined for money.

Halliday Bros. find their stock of fine pocket cutlery missing. The money drawer had also been taken out and carried to the window for examination. It is probable they had also appropriated some other articles, such as tobacco, cigars, oranges, etc. The value of the cutlery missing will run to thirty or thirty-five dollars.

The thieves also attempted an entrance to Richter's grocery, but were probably scared off by the light which he keeps burning in his bed room. We understand that Mr. Richter was awakened by the noise, and was prepared to give the gentlemen a warmer welcome than they would have appreciated.

Entrance was effected to Halliday's back room by breaking or cutting out a pane of glass and reaching through and slipping back the bar which held the door. At Furrow's the back door was merely forced open by main strength.

Late styles Piques, Lawns and other Dress Goods just opened at W. B. Harlan's.

Theatrical.

The two exhibitions given by the Kirkville amateur theatrical club were quite creditable to the young gentlemen and ladies who took part. All the parts were very well sustained and two or three excellently rendered, even for professionals. We were sorry the receipts were not up to the full mark of expectation, for when we can have as good performances as the above two were, there is no need of giving our money to strolling companies who are here to-day and gone to-morrow.

A move is on foot by leading and active business men to form a new Fair Association to be incorporated and with sufficient capital to purchase and add largely to the grounds of the old association, and to put the matter in shape for a big fair next fall. We will give further particulars as the matter gathers shape.

Ladies call and see those Sheffield Shawls, New Lawns and Dress Goods, Ready Made Suits, Shoes, Slippers, etc., just opened out at W. B. Harlan's.

Improvements.

Geo. R. Brewington has removed his well house from the front yard and put in the well a little green pump which will do one can find.

Our circuit clerk W. J. Ashlock is also looking after his home comforts, rightly too, in the way of a 16x40 feet addition to his residence in the east part of town.

Dr. G. is making a fine looking place of his residence property near the square.

The store room occupied by the grange store is being lengthened by an addition to the north end of forty feet.

With this, its fourth number, the Graphic issues twenty-six quires to actual subscribers, a large proportion of whom have paid cash in advance. For a baby only three weeks old we might term it a right lively infant. At this rate it will only require four weeks longer to catch up with the boasted circulation of the Democrat, made up as it is at any price and on any terms, and paid for in pumpkins-and-string-beans-when-ever-you-like-or-not-at-all-if-you-don't-choose-to.

There will have to be a special term of the day of judgement in order to try all the cases of misrepresentation of the Graphic. One would hardly think it possible for honorable, high toned gentlemen to handle the truth so carelessly. If the truth were half as explosive as nitro-glycerine there would have been at least forty first class funerals the last week.

The oratory at the greenback convention Thursday was rendered doubly conspicuous by the absence of the melodious voice of the author of "Metaphysics of money, M. D."

A nice line of Ladies', Misses', and children's Slippers and shoes—just arrived at Harlan's.

The Democrat doesn't succeed in leading either the democratic or greenback parties in this county to any great extent. It being for soft money, yet the party in convention a few days ago, recommended Tilden who is a hard money man, and some of the glib speakers in convention here last Thursday declared that no honest greenbacker would join the democratic party. Verily the Democrat is in a bad fix.

Virginia Conservatives.

Richmond, May 20.—The conservative convention adopted a resolution instructing the delegates to Cincinnati to adhere to the two third rule, also a resolution that the conservative party of Virginia affiliate with the national democratic party, and would not support any one for elector who did not declare in favor of the non-issues of the national democratic convention. Adjourned.

EXPLANATION: GIVE EAR, ON THE PEOPLE.

Minute mathematical calculations have demonstrated to an incontrovertible certainty that all men are approaching the era of metaphysics. Therefore during your natural lifetime you should live well and economical. To do this successfully it becomes necessary for you to purchase that which is required to keep the chemical laboratory that manufactures our life forces, and the materials adequate for the proper prosecution of its mysterious operations, at W. H. Turner's grocery store, west side at McGovern's old stand.

The editor of the Democrat is like the man who sat down between two chairs. The democrats are on one side and the g. b.'s on the other, while the Democrat is rolling around in the dust between.
